About the Speakers

Dr. Gerald Chiche is the Thomas P. Hinman Endowed Chair in Restorative Dentistry, and the Director of the Center for Esthetic & Implant Dentistry at Augusta University, Dental College of Georgia. He's given programs nationally and internationally, and is a Past President of the American Academy of Esthetic Dentistry. He's author of the textbooks: Esthetics of Anterior Fixed Restorations, and Smile Design - A guide for Clinician, Ceramist and Patient. He's the recipient of the 2003 LSU Alumni Award, the 2003 Award of the Seattle Study Club for best dental educator of the year and the 2007 Distinguished Lecturer Award of the Greater New York Academy of Prosthodontics. In 2009, he became the first recipient of the Endowed Chair sponsored by the Thomas P. Hinman Dental Society.

Center for Excellence in Continuing Education

Dear Dental Colleagues,

The Indiana Dental Association is proud to announce the new **IDA Center for Excellence** in Continuing Education program. Formally, the IDA/IUSD Academy of Continuing Education, the **IDA Center for Excellence** features the highest quality of live continuing education by offering two one-day live seminars each year to you, your dental colleagues and your dental team, in a central Indiana location.

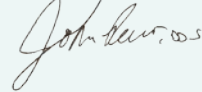

Hosted at the Embassy Suites Conference Center in Plainfield, our 2019 programming includes **Dr. Gerard Chiche's Smile Design, Bonding and Esthetic Materials Update on Friday, April 12, 2019** and **Dr. Sam Low's Perio Series on Friday, November 1, 2019**.

Each session includes lunch, and will develop you and your team professionally with five LIVE CEUs for the same great low prices. We look forward to seeing you soon!

Sincerely from Your IDA Center for Excellence Programming Committee,

Dr. Karen Ellis, Chair (IDDS)

Dr. John Reno (IDDS)

Dr. Jeffrey Stolarz (NIDS)

Friday, April 12, 2019

(5 Live CEUs)

Smile Design, Bonding & Esthetic Materials Update

Dr. Gerard Chiche

Description: This presentation will present key points formulated into a systematic approach to resolve esthetic problems with predictable results and improved laboratory support. It will also covers critical details of porcelain veneers and all-ceramic crown techniques in terms of system selection, cement and adhesive selection and bonding sequence.

Learning Objectives:

- Managing esthetic treatment techniques.
- Optimize and understand all-ceramic and bonding techniques.
- Step-by-step materials selection.

Co-sponsored by Kuraray-Noritake

Friday, November 1, 2019

(5 Live CEUs)

Perio Series

Dr. Sam Low

Description: This periodontal series covers managing difficult periodontal patients and incorporating quality periodontics into comprehensive restorative dentistry. This fast-paced seminar provides the eager clinician with the tools to satisfactorily manage complex periodontal patients presented in today's practice. This presentation unravels the complexities of achieving excellent long-term restorative results, including implants. Participants have the opportunity to engage in actual patient cases through a "hands-on" decision-making exercise.

Lecture Objectives:

- Differentiate between recurrent and refractory periodontal patients.
- Develop treatment protocols.
- Discover patient resistance/susceptibility patterns for predictable outcomes.
- The role of laser therapy in periodontics.

The Center for Excellence in Continuing Education meets at:
